

Cafes Club is a Business-to-Business (B2B) solution that answers the needs of Internet Cafes by provided reliable service with high-speed access to the Internet, at a cost that is directly proportional to the sales turnover of the Internet Cafe. It is an on-demand, centrally hosted and managed by Teledata ICT. The cafes investment (expressed in GH¢, and based on a minimum monthly committed spend) is channeled into generating time and data based vouchers.
